CONTENTS

Number 1, Jan/Feb 1985

1 Annotation: Enolase isoenzymes as diagnostic markers
J. A. Royds, C. B. Taylor and W. R. Timperley

17 Feline dysautonomia (the Key-Gaskell syndrome): an ultrastructural study of autonomic ganglia and nerves
I. R. Griffiths, N. J. S. Sharp and M. C. McCulloch

31 Nerve cell loss in the progressive encephalopathy induced by aluminium powder. A morphologic and semiquantitative study of the Purkinje cells
B. Ghetti, M. Musicco, J. Norton and O. Bugiani

55 A quantitative histological study of neuronal loss from the locus coeruleus of ageing mice
R. R. Sturrock and K. A. Rao

61 Case report: Infantile hypothalamic hamartoma with multiple congenital abnormalities
M. A. Nurbhai, B. E. Tomlinson and B. Lorigan-Forsythe

71 Proceedings of the sixty-seventh meeting of the British Neuropathological Society held at the University of Sheffield, 12–13 July 1984

Number 2, Mar/Apr 1985

81 Annotation: Neural tissue grafts and repair of the injured spinal cord
P. J. Reier

105 Immunocytochemical localization of enkephalin-like immunoreactivity in neurons of human hippocampal formation: effects of ageing and Alzheimer's disease
H. K. Kulmala

117 Glycogen particles in methionine sulfoximine epileptogenic rodent brain and liver after the administration of methionine and actinomycin D
P. Delorme and T. K. Hevor

129 Glycogen content and fructose-1, 6-biphosphatase activity in methionine sulfoximine epileptogenic mouse brain and liver after protein synthesis inhibition
T. K. Hevor, P. Delorme and J. Gayet

141 Brief report: A cerebellar abnormality in the mouse with motor end-plate disease
D. J. Dick, R. J. Boakes and J. B. Harris

149 British Glioma Group meeting, Glasgow, 6 April 1984

153 Book reviews

Number 3, May/June 1985

161 Changes of 5′-nucleotidase activity in cultured glioma cells
S. Amano, M. Sasahara, E. Yamada, H. Kataoka and F. Hazama

171 Transient uncrossed corticospinal fibres in the newborn rat
T. Kato, A. Hirano, T. Kataqiri and H. Sasaki

179 Two types of brain lesions in Wernicke's encephalopathy
A. Torvik

191 Acrylamide-induced ascending degeneration of ligated periferal nerve: effect of ligature location
L. R. Sharer and H. E. Lowndes

201 2,5-Hexanedione and acrylamide reorganization of motoneuron perikarya
A. B. Sterman and N. Sposito

213 Pathogenisis of mouse scrapie: dynamics of vacuolation in brain and spinal cord after intraperitoneal infection
Shirley Cole and R. H. Kimberlin

229 Irradiation and BCNU effects in the stroma in a rat transplanted glioma model: analysis of cerebral tumor bed effect
A. M. Spence, J. P. Geraci and R. P. Cent

245 Case report: Intracranial malignant teratoma
J. V. Diengdoh, P. H. Buxton and P. M. Foy

251 Book reviews

Number 4, July/Aug 1985

253 Annotation: Can the BB-rat help to unravel diabetic neuropathy?
A. A. F. Sima

265 Transient retino-inferior collicular fibres in neonatal rats: their persistence after removal of one eye at birth
T. Kato, A. Hirano, K. Honda, T. Katagiri and H. Sasaki

273 Ceroid-lipofuscinosis (Batten's disease): pathogenesis of blindness in the ovine model
I. G. Mayhew, R. D. Jolly, B. T. Pickett and P. M. Slack

291 Effects of prenatal exposure to ethanol on the maturation of the pyramidal neurons in the cerebral cortex of the guinea-pig: a quantitative golgi study
I. Fabregues, I. Ferrer, J. M. Gairi, A. Cahuana and P. Giner

299 The contusion index: a reappraisal in human and experimental non-missile head injury
J. H. Adams, D. Doyle, D. I. Graham, A. E. Lawrence, D. R. McLellan, T. A. Gennarelli, M. Pastuszko and T. Sakamoto

309 Case report: Adenoid cystic carcinoma presenting as intracranial tumour
D. R. McLellan and J. H. Adams

317 Proceedings of the sixty-eighth meeting of the British Neuropathological Society held at the Institute of Psychiatry, London, 17–18 January 1985

Number 5, Sept/Oct 1985

329 Annotation: IgM paraproteinaemia, polyneuropathy and myelin-associated glycoprotein (MAG)
N. A. Gregson and S. Leibowitz

349 Simultaneous expression of glial fibrillary acidic (GFA) protein and neuron-specific enolase (NSE) by the same reactive or neoplastic astrocytes
S. A. Vinores and L. J. Rubinstein

361 Primary demyelination in the central nervous system of cats
R. D. Cook and G. E. Wilcox

369 Age-related variations in the neuron content of the cerebral cortex in senile dementia of Alzheimer type
B. M. Hubbard and J. M. Anderson

383 Changes in the distribution of histochemically localized mercury in the CNS and in tissue levels of organic and inorganic mercury during the development of intoxication in methylmercury treated rats
R. J. Hargreaves, J. R. Foster, D. Pelling, S. R. Moorhouse, S. D. Gangolli and I. R. Rowland

403 Announcement

405 Book reviews

Number 6, Nov/Dec 1985

Volume 11, Number 6, November/December 1985

407 Ventral root axonopathy and its relation to the neurofibrillary degeneration of lower motor neurons in aluminium-induced encephalomyelopathy
L. C. Triarhou, J. Norton, O. Bugiani and B. Ghetti

431 Progressive axonopathy: an inherited neuropathy of boxer dogs. 2. The nature and distribution of the pathological changes
I. R. Griffiths, M. C. McCullock and S. Abrahams

447 Histochemical fibre typing and ultrastructure of the small fibres in Duchenne muscular dystrophy
S. C. Watkins and M. J. Cullen

461 A morphometric study of the microvasculature of a rat glioma
P. J. Luthert and P. L. Lantos

475 Case report: Congenital amaurotic idiocy—a pathological, histochemical, biochemical and ultrastructural study
S. Humphreys, B. D. Lake and C. L. Scholtz

485 Current topics in neuropathology: Cushing's disease
A. M. McNicol

499 Proceedings of the sixty-ninth meeting of the British Neuropathological Society held at the University of Bristol 11–12 July 1985

509 Author and subject index to Volume 11
